

# MyNorth Index Moderately Defensive

Monthly update for month ending  
31 January 2025

## Description

The Fund offers investors a passively managed and diversified exposure to a variety of asset classes including shares, property, fixed interest and cash. Investments are also spread across both in Australian and overseas markets. Growth assets for the MyNorth Index Moderately Defensive Fund (such as shares and property) will have an average allocation of 55% with the difference in defensive assets. Securities in the underlying asset classes will be managed to track the nominated index of that asset class.

## Investment objective

The Fund aims to match the return (before fees, expenses and tax) of the indices of the underlying asset classes in which the Fund invests, in proportion to the Fund’s strategic asset allocation (SAA) weights.

## Target investor

This product is intended for a consumer who is seeking capital growth and potentially some income distributions. It has a high risk/return profile and is intended for use for up to a standalone of an investment portfolio. It is likely to be consistent with the financial situation and needs of a consumer with a minimum investment timeframe of 4 years and who is unlikely to need to withdraw their money on less than one week's notice.

## Why MyNorth Index?

1. Low-cost diversified index funds.
2. Greater levels of diversification through exposures such as emerging market equities, property and infrastructure.
3. Highly liquid underlying investments.
4. Dedicated and experienced multi-asset investment team.

## Performance history

Performance <sup>(ii)</sup>	1 Mth (%)	3 Mths (%)	1 Yr (%)	5 Yrs (% pa)	Since inception (% pa)
